Faded Hair Now Quick Way to Whiten Easily Renewed

Every woman knows how import ant it is to keep her hair attractive and free from gray, faded streaks. Proper care of the bair is the very

immediate relief given is almost like magic. It is very easily prepared, and there is nothing better for coughs. Into a pint bottle, put 2½ ounces of Pinex; then add plain granulated sugar syrup to make a full pint. Or you can use clarified molasses, honey, or corn syrup, instead of sugar syrup. Either way, the full pint saves about two-thirds of the money usually spent for cough preparations, and gives you a more positive, effective remedy. It keeps perfectly, and tastes pleasant—children like it.

You can feel this take hold instantly, soothing and healing the membranes in all the air passages. It promptly lossens a dry, tight cough, and soon you will notice the phlegm thin out and disappear. A day's use will usually break up an ordinary throat or chest cold, and it is also splendid for broachitis, croup, hoarseness, and broachitis, croup, ho

While the cleansing of the teeth seems fairly well assured by regular use of the tooth brush, this can by no means be depended upon to maintain the whiteness and lastre of the enamel. This is only too well appreciated by thousands of particular men and women who, in spite of the liberal use of various tooth powders, pastes and liquids, seem unable to remove the tinge of reliow or gray from the front of their teeth, or black or brownish fringes about the edges. It will be welcome news to all such that every stain and discoveration can be completely and quickly removed by the use of "Once-a-Week Tooth Polish," the discovery of a well-known dentist, If insed regularly, the disagreable tims will not reappear, and the teeth will always have that spotiess milky whiteness and sparkling beauty so much admired but so celdom seen. Its effectiveness in all the more remarkable because it is so perfectly harmiess. Instead of scratching or eating into the enamel or injuring the sums, it helps keep teeth, gums and mouth in a healthy state. Used by the little ones it will do much to prevent children's aiments. Druggists sell Once-a-Week Tooth Polish in convenient packages, with simple directions.
